

GOVERNMENT OF INDIA  
MINISTRY OF ELECTRONICS & INFORMATION TECHNOLOGY(MeitY)  
**RAJYA SABHA**  
**UNSTARRED QUESTION NO. 1218**  
TO BE ANSWERED ON: 25.11.2016

**SHORTAGE OF SKILLED MANPOWER IN IT SECTOR**

**1218. DR. PRABHAKAR KORE:**

Will the Minister of Electronics & Information Technology be pleased to state: -

- (a) whether it is a fact that the country is facing a severe shortage of skilled manpower in the Information Technology sector;
- (b) if so, the percentage and the reasons for shortage of skilled manpower in the sector; and
- (c) the details of the steps taken by Government to overcome the problem of shortage of skilled manpower in IT sector?

**ANSWER**

MINISTER OF STATES FOR MINISTRY OF ELECTRONICS AND  
INFORMATION TECHNOLOGY (SHRI P. P. CHAUDHARY)

(a) and (b): According to National Association of Software and Services Companies (NASSCOM), India has a diverse talent base and Information Technology (IT) Services-Business Process Management(BPM) firms are employing this talent in a diverse range of engagements. The Indian IT-ITES industry continues to be a net hirer. Due to the changing technological landscape, the industry provides on the job training to bridge the skill gaps if any.

(c): Ministry of Skill Development & Entrepreneurship and the Sector Skills Councils have been instituted for the purpose. IT – ITES Sector Skills Council, has identified 84 unique job roles under 48 occupations across 4 sub-sectors viz. IT Services, Business Process Management(BPM), Engineering Services and Research & Development(ER&D), Software Product Development(SPD). The National Skill Development Council (NSDC) and the Sector Skills Council (SSC) address the present and future requirement of identifying unique job roles and the skills required for the IT-ITeS sector.

Initiatives such as setting up of Centre for Excellence on Internet of Things (CoE on IoT) set up in Bangalore through a jointly funded project of Ministry of Electronics & Information Technology (MeitY), Education and Research Network (ERNET), Government of Karnataka and NASSCOM are also expected to cater to training needs in high technology areas. Such facilities offer opportunities for individuals as well as corporates to participate in high technology product development thereby upgrading not only skills of people, but also their solutions. These initiatives will bridge the continuing skills gap to future proof the workforce.

Human Resource Development activities of the Ministry of Electronics & Information Technology (MeitY) are targeted to ensure availability of trained human resources for the

manufacturing and service sector of electronics and IT industry, which inter-alia include identifying gap emerging from the formal sector and planning programmes in non-formal and formal sectors for meeting these gaps. The initiatives include Skill Development in the domain of Electronics & IT. The Skill Development activities of this Ministry are primarily being taken up by centres and affiliates spread across the country, by two autonomous Societies under MeitY viz. National Institute for Electronics & Information Technology (NIELIT) and Centre for Development of Advanced Computing (C-DAC).
