

GOVERNMENT OF INDIA
MINISTRY OF ELECTRONICS AND INFORMATION TECHNOLOGY
RAJYA SABHA
UNSTARRED QUESTION NO. 405
TO BE ANSWERED ON: 04.02.2022

APPLICATIONS RECEIVED UNDER VARIOUS SCHEMES

405. SHRI RIPUN BORA:

Will the Minister of ELECTRONICS AND INFORMATION TECHNOLOGY be pleased to state:

- (a): the number of applications received by the Central Government under the Production Linked Incentives (PLI), Scheme for Promotion of Manufacturing of Electronic Components and Semiconductors (SPECS) and Modified Electronic Manufacturing Clusters (EMC) 2.0 schemes respectively along with the details thereof;
- (b): whether the Government has given approval to any of the applications received;
- (c): if so, the details thereof and the amount disbursed there under, scheme-wise; and
- (d): the details of amount of investment expected to be brought in and employment expected to be generated because of these incentives in the electronics sector?

ANSWER

MINISTER OF STATE FOR ELECTRONICS AND INFORMATION TECHNOLOGY
(SHRI RAJEEV CHANDRASEKHAR)

(a), (b) and (c): Government of India's goal is to make India a significant design and manufacturing hub in Global Value chain for Electronics as part of its AtmaNirbhar Bharat Economic policies.

As part of this, we are broadening and deepening our electronics manufacturing ecosystem. To establish India as a global leader in electronics manufacturing, Government of India launched four flagship schemes, namely, Production Linked Incentive Scheme (PLI) for Large Scale Electronics Manufacturing, PLI Scheme for IT Hardware, Scheme for Promotion of Manufacturing of Electronic Components and Semiconductors (SPECS) and Modified Electronics Manufacturing Clusters (EMC 2.0) Scheme, which are aimed at "Atmanirbhar Bharat – A self-reliant India" under the aegis of National Policy on Electronics 2019 (NPE 2019). The details are as under:

- (i) Production Linked Incentive Scheme (PLI) for Large Scale Electronics Manufacturing was notified on 1st April, 2020. The Scheme extends an incentive of 6% to 4% on net incremental sales (over base year i.e. FY 2019-20) of goods under target segments (Mobile Phones and Electronic Components) that are manufactured in India to eligible companies, for a period of five (5) years. A total of twenty two (22) applications were received out of which sixteen (16) have been approved. The details are at Annexure-1.

Second round of the PLI Scheme with the target segment of specified electronic components was launched on 11.03.2021. The second round extends an incentive of 5% to 3% on net incremental sales (over base year i.e. FY 2019-20) of goods manufactured in India and covered under the target segment to eligible companies, for a period of four (4) years. Under the second round, eighteen (18) applications were received out of which sixteen (16) have been approved. The details are at Annexure-1(A).

(ii) Production Linked Incentive Scheme (PLI) for IT Hardware was notified on 03.03.2021. The PLI Scheme for IT Hardware extends an incentive of 4% to 2%/ 1% on net incremental sales (over base year i.e. FY 2019-20) of goods under target segments (Laptops, Tablets, All-in-One Personal Computers (PCs) and Servers) that are manufactured in India to eligible companies, for a period of four years (FY2021-22 to FY2024-25). The scheme was open for filing applications till 30.04.2021. Nineteen (19) applications were received out of which fourteen (14) have been approved. The details are at Annexure-2.

(iii) Scheme for Promotion of Manufacturing of Electronic Components and Semiconductors (SPECS) notified on April 01, 2020 provides financial incentive of 25% on capital expenditure for the identified list of electronic goods that comprise downstream value chain of electronic products, i.e., electronic components, semiconductor / display fabrication units, ATMP units, specialized sub-assemblies and capital goods for manufacture of aforesaid goods. The scheme is open to receive applications till 31.03.2023. As on January 27, 2022, twenty (20) applications have been received and approved under SPECS. The details are at Annexure-3.

(iv) Modified Electronics Manufacturing Clusters (EMC 2.0) Scheme was notified on 1st April, 2020 to provide support for creation of world class infrastructure along with common facilities and amenities, including Ready Built Factory (RBF) sheds / Plug and Play facilities for attracting major global electronics manufacturers along with their supply chain to set up their production facility in the country. Under the scheme, 4 applications have been received, out of which 2 applications have been approved. Details of the approved EMCs are at Annexure-4.

No disbursement has been made under the aforesaid PLI and SPECS schemes so far. Under the EMC 2.0 Scheme, an amount of INR 205.76 crore has been released.

(d): In the aforementioned PLI Schemes for Large Scale Electronics Manufacturing and IT Hardware, the amount of investment expected to be brought in by the approved applicants is INR 14,090 crore. The total employment (both direct and indirect) expected to be generated during the tenure of the schemes is about 8.57 lakh.

Under the SPECS Scheme, investment to the tune of INR 20,000 crore is expected. The total employment potential (both direct and indirect) of the scheme is approximately 6 lakh. The EMC 2.0 Scheme is targeted to attract new investment in the electronics manufacturing sector and to generate about 10 lakh employment opportunities in coming years.
