

GOVERNMENT OF INDIA
MINISTRY OF ELECTRONICS AND INFORMATION TECHNOLOGY
LOK SABHA
UNSTARRED QUESTION NO. 1689
TO BE ANSWERED ON 21.09.2020

USE OF SOCIAL MEDIA DURING LOCKDOWN

1689. SHRI N.K. PREMACHANDRAN:

Will the Minister of Electronics and Information Technology be pleased to state:

- (a) the details of the apps banned by the Government during the last six months;
- (b) whether the Government has conducted any study regarding the use of social media during the COVID-19 lockdown and if so, the details thereof;
- (c) whether the Government proposes to use the social media in a positive manner during the COVID-19;
- (d) if so, the details thereof and the action taken by the Government thereon;
- (e) whether the Government proposes to strengthen the internet facility considering the digital administration and if so, the details thereof; and
- (f) whether the internet facility is not available in rural areas and if so, the details thereof and the action taken by the Government in this regard?

ANSWER

MINISTER OF STATES FOR ELECTRONICS AND INFORMATION TECHNOLOGY
(SHRI SANJAY DHOTRE)

(a): The Ministry of Electronics and Information Technology (MeitY) has blocked 224 mobile apps under the provisions of section 69A of the Information Technology Act, 2000 in the interest of sovereignty and integrity of India, defence of India and security of State. Blocking of such Apps has been done on national security concerns and thus linkage with any country may not be disclosed in public domain.

(b): MeitY has not conducted any such specific study.

(c) and (d): Government through MyGov platform has initiated the dissemination of easy to understand and consistent information related to Corona outbreak through social media. The details of such steps are placed at Annexure.

Also Ministry of Information & Broadcasting, on 31st March, 2020, launched a dedicated Twitter handle @COVIDNewsByMIB for dissemination of information on COVID-19 and to generate awareness, dispel myths and educate the general amongst the public on COVID-19. During the past five months, the handle has posted around 14,200 tweets on the subject. Apart from this, Press Information Bureau has also used Social Media for dissemination of COVID-19 related information.

(e) and (f): As per the information provided by Department of Telecom, there are 29.83 rural internet subscribers per 100 population in the country as on 31.12.2019 as per latest “The Indian Telecom Services Performance Indicators” report of Telecom Regulatory Authority of India (TRAI) dated 30th June, 2020.

Internet connectivity is being provided by various Telecom Service Providers and Internet Service Providers in the country. To improve access to internet connectivity in rural areas, BharatNet project under Universal Services Obligation Fund (USOF), envisages provision of broadband/ Internet connectivity to the Gram Panchayats (GPs) in the country. Further, National Broadband Mission was launched on 17th December 2019 with a vision provide affordable and universal access of broadband for all.

Annexure
